

Privacy policy of the 5th European Lidar Conference ELC2025

The following personal data: full name, contact information (e-mail, postal address), employment information, dietary restrictions, disabilities, and any other relevant information collected upon the ELC2025 registration process by the ELC2025 Local Organizing Committee will be treated in the strictest confidence.

The information given will only be used for organizing purposes in accordance with the European General Data Protection Regulation.

In case of participation in the event, the full names and affiliations of participants will be listed on the conference website.

The email addresses of the participants will be circulated only for internal event communication channels.

The organizers use photographs taken during the ELC2025 conference events to communicate about the event on the website gallery, social media channels, and future events.
